

# EZ50 Water Care System

*Inspired By Nature*

CLEAN, CLEAR WATER • KIND TO SKIN, EYES & LUNGS • SIMPLE & SUSTAINABLE

EZ50 Water Care System  
by Clear Comfort

Endless Pools invites you to step up to Clear Comfort's EZ50 Water Care System. Specifically designed for Endless Pools models, it provides incredibly easy, effective pool care that's also low chlorine.

The patented Advanced Oxidation Processes (AOP) gives your pool:

#### AWARD-WINNING WATER CARE

Today's most advanced pool sanitation.

#### HEALTHY & GENTLE

Fewer by-products linked to skin, eye & lung irritation.

#### EASY & EFFECTIVE

Significantly less work to achieve better results.

## How it Works

With the EZ50 Water Care System, you'll notice the soft feeling of clean, clear water and the revitalizing difference on your skin, eyes and hair. You'll be able to breathe deeply without any chlorine scent in your home.

#### STEP 1: Air Goes In The System

Clear Comfort's patented process treats Oxygen (O<sub>2</sub>), from ambient air.

#### STEP 2: O<sub>2</sub> Converts Into O<sub>1</sub>

The system turns O<sub>2</sub> into Atomic Oxygen (O<sub>1</sub>). No additional chemicals are required for this process.

#### STEP 3: O<sub>1</sub> & Water Form Hydroxyls

O<sub>1</sub> is injected into the pool's circulation system & reacts to the water to create large amounts of powerful Hydroxyl Radicals. Those Hydroxyls rapidly destroy organic materials & contaminants.

# Crystal Clear Water, Made Easy

The EZ50 Water Care System couldn't be easier: change your cartridge once a year\*. The system self-regulates, with simple-to-understand indicator lights. You'll handle less chemicals; the water can stay clear with less chlorine than drinking water!

- Minimize red eye, dry skin, brittle hair, and lung irritation.
- Powerful chlorine supplement
- Reduce harmful disinfection by-products
- Eco-friendly pool water treatment

EZ50 VS OTHER SYSTEMS	NATURE2	UV	EZ50
Availability	Standard	Optional	Optional
Chlorine Usage	Low	Lower	Lowest
Ease of water care	Simple	Simpler	Simplest
Bacteria fighting power	Good	Better	Best
Oxidize Contaminants	Good	n/a	Best
Minimizes Eye/ Skin Irritation	Good	Better	Best
Minimizes Chemical Odor	Good	Better	Best
Softer, Silkier Water	n/a	n/a	✓
Cartridge/Bulb Average Life	4 months	1 year**	1 year*

\* Regular water chemistry checks are still recommended to maintain clean, clear, sanitized water. The EZ-50 system's one-year recommendation is based on 8,000-10,000 hours of use.

\*\*The UV system's one-year recommendation is based on the bulb's lifespan of approximately 9,000 hours or about 375 days.
